Dear Hocking County Assessor's Office,

We would like to ask for your assistance in informing the public about the availability of historic aerial photography of your county.

The United States Department of Agriculture's Farm Service Agency has been collecting aerial photography of the United States for over half a century. These aerial photos were originally collected to support federal farm programs throughout the United States. This historic film is now stored at the USDA's Aerial Photography Field Office (APFO) in Salt Lake City, Utah.

USDA aerial photos are high resolution images taken during the growing season and clearly show features such as roads, buildings, vegetation, trees and waterways. Most of these projects covered entire counties over large parts of the U.S. at least once a decade.

The APFO believes that these historic photos would be of great interest to the general public. Because many people seeking evidence of historic land use do research at their local county assessor's office, we are conducting a Public Information Campaign to make the county assessors' offices aware of the services we provide to the public.

The APFO is able to print or digitally scan these photos for public use. Our print photos and scans start as

low as \$13.00 each. We can also certify our photos for use as evidence in court for a small fee.

According to our Aerial Imagery Catalog, we have the following years and types of imagery available for your county:

HOCKING - 39073(BCJ)

Square Mile Land Area: 423

(P) = partial county coverage

Additional information about the APFO and available aerial imagery is available at:

www.apfo.usda.gov

We would appreciate it if you would make the attached PDF file accessible to the general public who visit your office or your website. Please feel free to forward this information to any government agency that might be interested in informing the public about this service.

If you have any questions about this Public Information Campaign, you can contact me via email or at my direct line listed below.

Thank you,

Linda Cotter
